

MIRACLES CAN HAPPEN

At just 8 years old, little Aradhya carried a burden no child should have to bear. Born with a condition that kept her neck tilted to one side, she struggled not only with pain and difficulty in learning, but also with the silent possibility of growing up feeling different from everyone around her. When we first met her, we knew this was not just a medical issue — it was a child's future at stake. But her parents believed the condition was “God-given” and could not be treated.

Before

After

Months of patient counselling, reassurance, and heartfelt conversations followed before they finally agreed to let us help. Our school stood beside Aradhya every step of the way — taking her to PGI Noida for consultations, tests, surgery, and recovery, all at the school's own expense.

Even after the surgery, the journey did not end. Exercises, physiotherapy, follow-ups, encouragement, and constant emotional support became part of her daily life. Today, Aradhya smiles a little brighter. She sits straighter.

She plays, learns, and dreams like every child deserves to. We are sincerely grateful to our School Welfare Incharge, Manvi, and our Principal, Deepak, for leading this thoughtful initiative and bringing it to a successful conclusion.

After Surgery

Students At LSUC – Opening Doors to New Possibilities

Story Telling

Doing Art

Selling Bangles

Our students proudly participated in the annual Learning Societies Unconference (LSUC) held at Bennett University, a dynamic platform that brings together 800+ participants from across the region and beyond to share ideas, learn from one another, and explore practical pathways toward regenerative communities. 40 students from Grade 10 represented our school with confidence

and creativity. Our girls showcased their talents through ramp walk performances, creative stalls, and handmade products. One student's confidence and presentation on the ramp especially impressed a local fashion designer, who expressed interest in collaborating with her in the future. It was truly a proud and inspiring experience for all.

Celebrating Yellow Belt Champions In Taekwondo

Another milestone achieved! Rudranshi (Grade 10), Vaishnavi (Grade 9), Yashika (Grade 8), and Sanvi (Grade 5) have earned their Yellow Belt in Taekwondo. Their hard work and dedication have brought them this success.

Pickleball In DDS

This month marked the beginning of Pickleball at our school, bringing a new and exciting sporting experience for our students. With great enthusiasm and energy, students actively participated, learned the rules and techniques of the game, and developed new skill.

A Valuable Learning Experience with Ms. Anju

Ms. Anju visited our school from Delhi and spent valuable time with both our teachers and students. She conducted interactive sessions, took classes, and shared effective teaching and learning methods. Her guidance, knowledge, and practical approach made the sessions truly inspiring and enriching for everyone.

Dear Friends

Aradhya's story is not just about a successful surgery. It is about hope replacing fear, awareness overcoming blind belief, and a community coming together to protect the future of one little girl. Because sometimes, changing a life begins simply with refusing to give up on a child.

Let us come together to build a more inclusive and compassionate society. With just Rs101 per day, you can support a girl's education and transform not only her life but also her future.

₹101 per day
