

Celebrating Our ASSET Achievers

**Manvi Grade IV
Science Topper**

**Rachna Grade IV Most
Improved (Overall)**

**Sanvi Grade IV Most
Improved (Science)**

ASSET is a national-level assessment by Education Initiatives that measures students' understanding of Maths, Science, and English. Conducted in over 800 private schools across India, it helps evaluate conceptual understanding and learning outcomes. ASSET toppers were awarded prize money for their outstanding performance in Maths, Science, and English. Our students secured positions in both the Top Performers and Most Improved Performers lists across all Edu-GIRLS schools.

**Anshika Grade VII
Most Improved
(Science)**

**Sona Grade VIII
Most
Improved (Overall)**

**Muskan Grade VIII Overall,
Science, English Topper**

Muskan's Message
"I am thankful to my teachers and school for believing in me. These achievements inspire me to keep learning and improving every day."

One Gali One Centre One Child At a Time

During my last visit to Firozabad, I visited a teacher's home and was struck by what I saw outside.

The streets were full of young children—some as young as two, others perhaps thirteen or fourteen—simply roaming around with nothing to do. These were not pleasant streets to grow up on. Rubbish lay scattered everywhere, open drains filled the air with a foul smell, and stray dogs roamed menacingly.

I couldn't help asking, "Why aren't you in school?"

The answer was heartbreaking.

None of them had ever been to school.

I was looking at a lost generation.

This got me thinking and an idea was born.

What if we could bring school to right where they live?

So we started identifying streets where there were many children not going to school. And we took a room on rent and provided 2 trained teachers.

And this was the start of our First Learning & Activity Centre.

One Gali One Centre One Child At a Time

Our 1st Centre Opened In June

Our 2nd Centre Opened In July

For the children we have created a safe space where they sit, learn and grow. Children are very eager and excited as they think they are coming to school.

3rd centre is almost ready and will open in August.

Circle U Teacher Track Program

During the summer break, our Principal, Deepak Sir, along with 2 teachers, spent 15 days in Pune participating in the prestigious Circle U Teacher Track Program.

Free Health Check-Up Camp At DDS

We welcomed Dr. Pratibha Mittal, an experienced gynecologist, along with her husband, Dr. Parv Mittal, a renowned orthopedic specialist. The doctors interacted with

students and teachers, conducted health check-ups, and shared valuable guidance on health, hygiene, and overall well-being.

Mala Rastogi
President

Dear Friends

Thank you for generously supporting our vision to educate every child from the weakest sections of society. By opening micro centres of learning accesible to every child, we hope to change the future of Firozabad. Your support is vital for creating these centres. So let's join hands.
